

Instructor Starter Kit

New instructors are encouraged to order the Instructor Starter Kit. This kit contains a sampling of lesson plans and student learning plans along with a set of all six student guide books.

Note: This kit is just a starting point. The full instructor material collection is only available online.

Online Instructional Materials: Download Tool

Registered HSFPP instructors can use the download tool to access all online instructor resources (Teacher Website: Home > Get Materials > Download).

Click on a module to view a dropdown menu with all module and lesson files. To access the items in the download tool you can either:

- Click on a particular item to download utilizing the hyperlink (or)
- Select multiple items, and then click the Download button at the bottom of the screen to conveniently package all selected files into one zip folder.

The expanded module view will show the following categories:

Module Learning Outcomes: A two-page summary of all lessons in a module, including activities and learning outcomes.

Parent Email Template: "Email Templates" to send to parents and guardians before beginning a new module.

Lesson Packs: One comprehensive .pdf document with all instructor and student materials for each lesson.

Lesson Plans: Detailed teacher lesson plans with preparation tips and in-depth facilitation notes. Additional activities beyond those found in the Student Guides as well as supplementary activities.

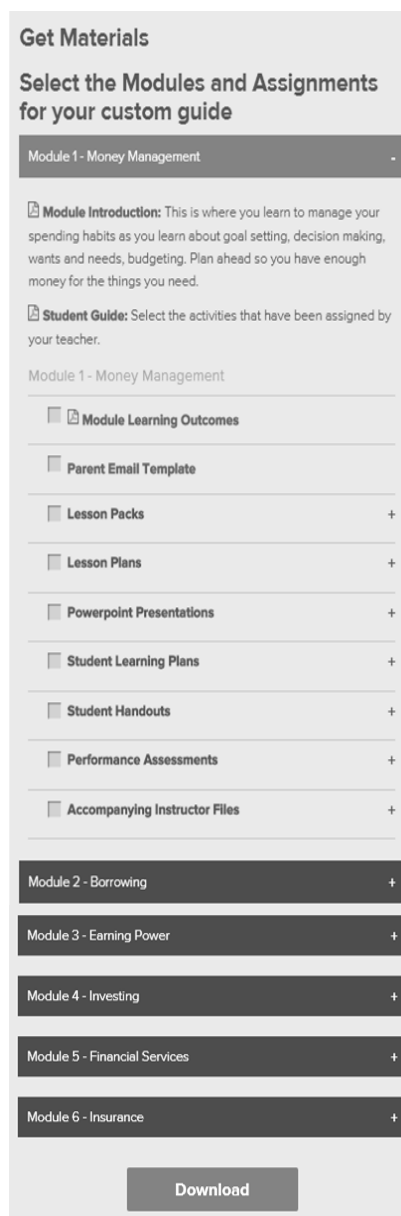

PowerPoint Presentations: The presentation show for each lesson with a light background. (**Note:** presentation speaker notes and a dark background version are in the "Accompanying Instructor Files").

Student Learning Plans: A one-page learning plan for each lesson to help students to plan their work and to share with colleagues while planning for differentiated instruction.

Student Handouts: All of the handouts needed for the activities and tasks embedded into each lesson.

Performance Assessments: Performance-based assessments (aka "Challenges") for each lesson with detailed instructions and a one-page Scoring Guide rubric. (**Note:** A recommended Rating Scale Guide is provided in the "Accompanying Instructor Files" to evaluate student performance.)

Accompanying Instructor Files: All additional instructor resources, including answer keys.
